Dear Year 12 Parents, Carers and Students

“Safe Drive Stay Alive” Roadshow – 23rd November 2021

We have arranged for all Year 12 St John's Sixth Form students to attend a “Safe Drive Stay Alive” Roadshow on Tuesday 23rd November between 1.00 and 2.30pm. The event is taking place in the Memorial Hall at Marlborough College.

Sixth Form lessons will be cancelled that afternoon, so all students are expected to attend the presentation. As the walk to the venue will need to be done during the lunch hour, the students will be asked to make their own way there and to meet staff outside the Memorial Hall to register at 12.45 pm. At the end of the presentation students living locally can walk home, while those who travel by bus will need to walk back to school by 3.00pm.

This is a very powerful presentation which is designed to make a lasting impact on those who attend; we have taken students to similar events in previous years and have had very positive feedback from them on the value of the experience. Please can you stress to your son/daughter that there is a zero-tolerance on the use of mobile phones during the presentation.

We will assume that permission is given but please let Miss Chamberlin-Medd know if you do not want your child to attend.

Yours faithfully

Mrs R Haig-Williams
Director of Sixth Form

SAFE DRIVE, STAY ALIVE

DORSET & WILTSHIRE
FIRE AND RESCUE

Dear Parent/Carer,

As part of our commitment to reducing injuries and fatalities on our roads in Dorset and Wiltshire, your child's school is working with the Dorset, Swindon and Wiltshire Road Safety Partnerships to educate students about their actions and possible consequences as drivers, passengers or motorcycle riders.

The Dorset and Wiltshire Fire and Rescue Service will be presenting a Safe Drive, Stay Alive Roadshow to your child's school on the 23 November at Marlborough College Memorial Hall, 1-2.30.

We recognise there is perhaps no time more worrying for parents than when their children begin to become drivers, and for good reason; it is a tragic fact that young drivers are statistically very much more at risk than other road users.

- **Research by the Association of British Insurers shows that teenage drivers are 10 times more likely to be killed or seriously injured while driving than motorists in their 40's.**
- **1 in 5 drivers involved in a serious Road Traffic Collision are under the age of 25.**
- **Around half of all accidental deaths of children are due to Road Traffic Collisions.**
- **An alarming 20% of drivers crash in their first year of driving.**

We all have a responsibility to do something about this and it is important to address young people's attitude to driving at an early stage. As a combined response, the Safety Partnership has developed a successful roadshow now in its 17th year. It is an extremely powerful and emotional experience called Safe Drive, Stay Alive and runs to a tried, tested and proven formula. Feedback evidences that this really is a very effective experience for young people.

Each show traces the events leading up to a road traffic collision and shows how the emergency services deal with the aftermath. If your child knows personally of somebody who has been killed or seriously injured in a Road Traffic Collision, this presentation is likely to remind them of the event and associated emotions. Careful consideration should be given to their attendance.

This is a powerful and emotional initiative that brings home the very real message of the consequences of poor driving behaviour on the road. The show has been designed to make young people aware of their responsibilities for their actions on the road and the potentially lethal results of failing to drive responsibly. Some students may find the experience distressing.

Parents should contact the school with any concerns they may have and for guidance and additional support. For more information about how you can support your child when they are learning to drive, please read our [Sway for Parents/Carers](#). If your family have been impacted directly by a Road Traffic Collision, you can contact these charities for support:
