Dear Parent or Carer

Student Mentoring

At St John's we run a mentoring scheme for our students who may benefit from having an older student support them with their learning. The aim the scheme is to support and encourage students to reach their goals.

A carefully selected Year 12 student mentor will offer support and advice with study skills, being positive, building confidence, preparing for GCSEs, as well as anything else that they think will be of benefit.

Central to these mentoring discussions will be the chance for students to reflect on their own progress and set appropriate targets, knowing that they have the support and advice of their own mentor to help them achieve these.

Your child has been paired up with a mentor who will be in touch soon to arrange the first meeting. The meetings will happen during tutor time and will take place in the public 6th form study room.

If you have any questions or concerns, about your child receiving such mentoring, please get in touch with Miss K Kirby or Miss M McNeill and we can discuss this further.

Yours sincerely

Miss K Kirby
