

# German schools

By Chloe

# Length of a German school day

**Mein Schul Tag- my school day**

**Ich gehe zur Schule-im going to school**

In Germany, the pupils of any school, secondary, primary or collage will start school from 7:30 to 8:15 and usually end between 12:00pm and 1:30 pm. The class periods/lessons usually last for 45 mins and they usually have a short break in between.

Also, just like in England there are usually five or six lessons a day!

# German school uniform

**Wir tragen keine Schuluniform-we don't wear school uniform**

**In unserer Schule müssen wir Schuluniformen tragen-at our school we must wear school uniform**

Another reason why English schools wear school uniform is so that everyone is equal. That way no one can get bullied/or judged for what they choose to wear.

Unlike in England there is no tradition of German schools wearing school private, city and university students **don't wear school uniform!** How unfair! Although English students will look smarter and tidier.

# Subjects German students learn

These are the main subjects learnt in Germany:

- German-Deutsch
- Maths-Mathe
