- Work with the Principal, SENDCo and Assistant SENDCo to determine the strategic development of the SEND policy and provision in the school

#### 1.3 The Principal (Mr Alan Henderson)

The Principal will:

- Work with the SENDCo, Assistant SENDCo and SEND governor to determine the strategic development of the SEND policy and provision within the school
- Have overall responsibility for the provision and progress of learners with SEND.

## **1.4 Class teachers**

Each class teacher is responsible for:

- The progress and development of every pupil in their class
- Working closely with any teaching assistants or specialist staff to plan and assess the impact of support and interventions and how they can be linked to classroom teaching
- Working with the SENDCo and Assistant SENDCo to review each pupil's progress and development and decide on any changes to provision
- Ensuring they follow this SEND policy
- Making referrals to the SEND Team highlighting concerns and providing initial evidence to support further investigation.

## **2. SEND information**

### **2.1 The kinds of SEND that are provided for**

Our school currently provides additional/different provision for a range of needs, including:

- Communication and interaction, for example, autistic spectrum disorder, social communication difficulties, speech and language difficulties
- Cognition and learning, for example, dyslexia, dyspraxia
- Social, emotional and mental health difficulties, for example, attention deficit hyperactivity disorder (ADHD)
- Sensory and/or physical needs, for example, visual impairments, hearing impairments, processing difficulties, epilepsy

### **2.2 Identifying pupils with SEND and assessing their needs**

St John's will assess each pupil's current skills and levels of attainment on entry (baseline assessments), which will build on previous settings and Key Stages, where appropriate. Class teachers will make regular assessments of progress for all pupils and identify those who:

- Are significantly slower than that of their peers starting from the same baseline
- Fail to match or better their previous rate of progress
- Fail to close the attainment gap between them and their peers or it is noticeably widening

This may include progress in areas other than attainment, for example, social needs.

Slow progress and low attainment will not automatically mean a pupil is recorded as having SEND.

When deciding whether special educational provision is required, we will start with the desired outcomes, including the expected progress and attainment, and the views and the wishes of the pupil and their parents. We will use this to determine the support that is needed and whether we can provide it by adapting our core offer, or whether something different or additional is needed.

### **2.3 Consulting and involving pupils and parents**

We will have an early discussion with the pupil and their parents (solution focused meeting with SENDCo and/or Assistant SENDCo ) when identifying whether they need special educational provision. These conversations will make sure that:

- Everyone develops a good understanding of the pupil's areas of strength and difficulty
- We take into account parental concerns
- Everyone understands the agreed outcomes sought for the child
- Everyone is clear on what the next steps are

Notes of these early discussions will be added to the pupil's record and also given to their parents.

We will communicate with parents if/when it is decided that a pupil will receive SEND support.

#### **2.4 Assessing and reviewing pupils' progress towards outcomes**

We will follow the graduated approach and the four-part cycle of **assess, plan, do, review**.

The SENDCo and Assistant SENDCo will carry out a clear analysis of the pupil's needs. This will draw on:

- Teachers' assessment and experience of the pupil
- Their previous progress and attainment or behaviour
- The individual's development in comparison to their peers and national data
- The views and experience of parents
- The pupil's own views
- Advice from external support services, if relevant

The assessment will be reviewed regularly.

All teachers and support staff who work with the pupil will be made aware of their needs (either via a OPP/emails to teacher of) detailing the outcomes sought, the support provided, and any teaching strategies or approaches that are required. We will regularly review the effectiveness of the support and interventions and their impact on the pupil's progress.

#### **2.5 Supporting pupils moving between phases and preparing for adulthood**

St John's will contact the previous school/setting the pupil is moving from to collect information to support transition. If appropriate, additional transition visits are arranged both from us to the former school and the new pupil to this school.

All pupils have transition visits as part of our core offer.

We will share information with the school, college, or other setting the pupil is moving to. We will agree with parents and pupils which information will be shared as part of this.
